

Section 15: Interruption of Service

- 1.0 Utility will use reasonable diligence in supplying electric power but shall not be liable for breach of contract in the event of, or for loss, injury, or damage to persons or property resulting from, interruptions in service, excessive or inadequate voltage, single-phasing, or otherwise unsatisfactory service, whether or not caused by negligence.
- 2.0 The Utility may disrupt service during emergencies or for the safety and health of its employees and the public without prior notice.
